

Product Data Sheet

PETROSINE 68

DESCRIPTION

PETROSINE 68 is a high quality lubricant that is recommended for wet air filters.

APPLICATION

- Wet-type air filters

PROPERTIES

- Possesses carefully selected additives to improve oxidation resistance
- Provides outstanding anti-wear, anti-rust, anti-foam and tackiness properties

AVAILABLE PACKAGES

Please contact our Sales Team for the available packages.

GRADES

- ISO VG 68

TYPICAL CHARACTERISTICS*

Color, ASTM	2.0
Density at 15°C, kg/L	0.8806
Kinematic Viscosity at 40°C, cSt	67.90
Kinematic Viscosity at 100°C, cSt	8.570
Viscosity Index	100
Flash Point, COC, °C	242

** Only typical results and may vary per production blend*
