

## Product Data Sheet

# TURNOL 40

### DESCRIPTION

**TURNOL 40** is a premium and water-soluble metalworking fluid formulated to provide optimum cooling performance for various metal working processes and other related light to moderate duty machining operations.

### PROPERTIES

- Provides protection to rust and corrosion
- Has excellent wetting and cooling performance
- Inhibits foaming tendency
- Resists bacterial attack to prolong the storage life of emulsion

### GRADE

N/A

### APPLICATION

- Machining, sawing, drilling and milling operations
- Dilution ratios with water range from 1:10 for milling and turning, and 1:40 for grinding

### AVAILABLE PACKAGES

Please contact our Sales Representative for the available packages.

### TYPICAL CHARACTERISTICS\*

Appearance, Visual	Clear
Color, ASTM	L2.0
Scent	Strawberry
Density at 15°C, kg/L	0.8818
Kinematic Viscosity at 40°C, cSt	30.60
Kinematic Viscosity at 100°C, cSt	5.316
Flash Point, COC, °C	180

*\*Only typical results and may vary per production batch*
