

Product Data Sheet

ZERFLO SX

DESCRIPTION

ZERFLO SX is a high-performance refrigeration compressor lubricant based on a premium naphthenic mineral oil. The excellent stability and low temperature properties make this product ideal for a wide variety of refrigeration applications. Zerflo SX is wax free which prevents solid formation in the evaporator and expansion valve.

PROPERTIES

- Chemically stable to resist chemical reaction with refrigerant or any material present in the system
- Thermally stable to eliminate excessive hard carbon deposits at compressor hot spots
- Proper viscosity even when diluted with refrigerant to ensure adequate lubrication at all times

APPLICATION

- Refrigeration compressors using R-22, R-123 and R-414A refrigerant.

GRADES

- VG 55

AVAILABLE PACKAGES

Please contact our Sales Team for the available packages.

TYPICAL CHARACTERISTICS*

VG 55

Density at 15°C, kg/	0.9081
Flash Point, COC, °C	208
Viscosity at 40°C, cSt	58.40
Viscosity at 100°C, cSt	6.555
Pour Point, °C	- 47

** Only typical properties and may vary per production batch.*
