

AIRLUBE 100**SECTION 1: IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY**

| | |
|-----------------|--|
| Product Name | AIRLUBE 100 |
| Manufacturer: | PETRON CORPORATION JESUS ST., PANDACAN, MANILA PHILIPPINES |
| Product Type | Petroleum Hydrocarbons with Additives |
| Recommended Use | Rock Drill Lubricant |
| Telephone No. | (02) 8-884-9200 |
| Website | www.petron.com |

SECTION 2: HAZARDS IDENTIFICATION

GHS CLASSIFICATION Not Classified as Hazardous Substance

GHS LABELING

| | |
|-----------------------------|---|
| Pictogram | No symbol |
| Signal Word | No signal word |
| Hazard Statement | No hazard statement |
| Other Hazard Information: | |
| Health Hazards | Not expected to be a health hazard when used under normal conditions. |
| Physical / Chemical Hazards | No significant hazards. |
| Environmental Hazards | Not classified as dangerous to the environment. |

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

| Composition | CAS Number | % Weight |
|--|-------------|-------------|
| Highly refined mineral oil | 64742-62-7 | 5.0 – 10.0 |
| Distillates (petroleum), hydrotreated heavy paraffinic | 64742-54-7 | 90.0 – 95.0 |
| Alkyl Polysulfides | Proprietary | <1.0 |

SECTION 4: FIRST AID MEASURES

| | |
|---------------------|---|
| Eye Contact | Immediately flush eyes with large amount of water for at least 15 minutes or until irritation subsides. If irritation persists, get prompt medical attention. |
| Skin Contact | Immediately flush with large amount of water; use soap if available. Remove contaminated clothing and shoes, and launder before reuse. |
| Inhalation | This product is not expected to present an inhalation problem at ambient temperature. However, if overexposed to oil mist, using proper respiratory |

protection, immediately remove the affected person immediately to fresh air. Administer artificial respiration if breathing is stopped. Keep at rest. Call for prompt medical attention.

Ingestion

If swallowed, DO NOT induce vomiting. If individual is conscious, give milk or water to dilute stomach contents. Keep warm and quiet. Get immediate medical attention. DO NOT attempt to give anything by mouth to an unconscious person.

| | |
|---|---|
| SECTION 5: | FIRE-FIGHTING MEASURES |
| Flash Point, COC, °C | 240 |
| Extinguishing Media | In case of fire use foam, carbon dioxide or dry chemical extinguishers. |
| Special Fire-fighting Procedures | Water jets should not be used directly on igniting products. Avoid spraying water directly into storage containers due to danger of over-boil. However, water may be used to cool exposed containers, structures and equipment adjacent to fire. Respiratory and eye protection required for fire-fighting personnel. |
| Decomposition Products Under Fire Conditions | Fumes, smoke, oxides of sulfur, nitrogen, carbon and other toxic gases may be formed. |

| | |
|--------------------|---|
| SECTION 6: | ACCIDENTAL RELEASE MEASURES |
| Land Spill | Taking normal safety precaution, eliminate sources of ignition. Prevent additional discharge of material, if possible to do so without hazard. For small spills, implement cleanup procedures. For large spills, implement clean-up procedures and, if in public area, keep public away and advise authorities. Prevent liquid from entering sewers, water courses, or low areas. Contain spilled liquid with sand or earth. Recover by pumping or with a suitable absorbent. If liquid is too viscous for pumping, scrape up. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. |
| Water Spill | Use booms to confine spills immediately. Remove from water surface by skimming or with suitable adsorbents. If allowed by local authorities and environmental agencies, sinking and/or suitable dispersants may be used in non-confined waters. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations. |

| | |
|----------------------------|--|
| SECTION 7: | HANDLING AND STORAGE |
| Handling Procedures | Keep away from potential sources of ignition. Open container in a well ventilated area. Avoid breathing vapors. Keep containers closed when not in use. Wash thoroughly after handling. "Empty" containers with retained product residue (liquid or vapor) can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat, flame, sparks, static electricity or other sources of ignition; they may explode and cause death or injury. Empty drums should be completely drained, properly bunged and promptly returned to a drum re-conditioner, or properly disposed off. |
| Storage Procedures | Do not store near potential sources of ignition. Store in a well-ventilated area. Odorous and toxic fumes may form from the decomposition of this product if stored at temperatures in excess of 60°C for extended periods of time or if heat sources in excess of 70°C are used. |

| | |
|-------------------|--|
| SECTION 8: | EXPOSURE CONTROLS AND PERSONAL PROTECTION |
|-------------------|--|

The following are the exposure limits for the major components of this product (when mists/aerosol may occur).

| Component | CAS-No. | Source | Value |
|----------------------------|------------|--|--|
| Highly refined mineral oil | 64742-62-7 | ACGIH TWA TWA (Mist) STEL (Mist) | 5 mg/m ³ 5 mg/m ³ 10 mg/m ³ |

Personal Protection

| | |
|-------------------------|---|
| Ventilation Procedures | The use of local exhaust ventilation is recommended to control mists or vapors. Additional ventilation or exhaust may be required to maintain air concentrations below exposure limits. |
| Hand Protection | Use chemical resistant gloves. |
| Eye Protection | Where contact may occur, wear safety glasses with side shields. |
| Respiratory Protection | Use NIOSH/OSHA approved full-face respirator with a combination organic vapor and high efficiency filter cartridge if the recommended exposure limit is exceeded. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites. |
| Clothing Recommendation | Wear either a chemical protective suit or apron when potential for contact with material exists. Use neoprene or nitrile rubber boots when necessary to avoid contaminating shoes. Do not wear rings, watches or similar apparel that could entrap the material and cause a skin reaction. |

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

| | |
|-----------------------------------|--------------------------------------|
| Appearance | Clear |
| Odor | Characteristic of petroleum products |
| Kinematic Viscosity at 40°C, cSt | 94.55 |
| Kinematic Viscosity at 100°C, cSt | 11.52 |
| Density at 15 °C, kg/L | 0.8698 |
| Flash Point, °C | 240 |
| pH | No data |
| Boiling Point, °C | No data |
| Melting Point, °C | No data |
| Vapor Pressure, kPa | No data |
| Vapor Density | No data |
| Solubility in Water | Insoluble |
| Evaporation Rate | No data |
| Flammability | Non flammable |
| Partition Coefficient | No data |
| Auto-ignition Temp, °C | No data |
| Decomposition Temp, °C | No data |
| Explosion limits | No data |

SECTION 10: STABILITY AND REACTIVITY

| | |
|------------------------|---|
| Stability | This product is stable and hazardous polymerization will not occur. |
| Incompatibility | Strong oxidizing agents |
| Polymerization | Not Applicable |

SECTION 11: TOXICOLOGICAL INFORMATION

| | |
|---------------------------------------|---|
| Acute Toxicity | Not available |
| Skin Corrosion/Irritation | Low order of toxicity. Frequent or prolonged contact may cause mild skin discomfort. |
| Respiratory/Skin Sensitization | Not expected to be sensitizer |
| Germ Cell Mutagenicity | No available information |
| Aspiration Hazard | Minimal toxicity |
| Carcinogenicity | No available information |
| Reproductive Toxicity | No relevant data identified from the literature searched. |
| Specific Target Organ Toxicity | Avoid breathing vapor or mists. Repeated and prolonged over-exposure to oil mists may result in droplet deposition, oil granuloma formation, inflammation and increased incidence of infection. |

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the ecotoxicology of similar products.

| | |
|--|--|
| Acute Toxicity | No data |
| Chronic Toxicity | No data |
| Environmental Mobility | Oil component of this product floats and can migrate from water to land. |
| Environmental Degradability | Data have not been determined specifically for this product, but it is not expected that it will be "readily" biodegradable. |
| Ecotoxicity & Bioaccumulation | Data have not been determined specifically for this product, but it is expected to be harmful to aquatic organisms. |

SECTION 13: DISPOSAL CONSIDERATIONS

| | |
|-----------------------|--|
| Waste Disposal | Material, if discarded, is expected to be hazardous waste due to toxicity. Waste management should be in compliance with local and national regulations. |
|-----------------------|--|

SECTION 13: DISPOSAL CONSIDERATIONS

| | |
|-----------------------|--|
| Waste Disposal | Material, if discarded, is expected to be hazardous waste due to toxicity. Waste management should be in compliance with local and national regulations. |
|-----------------------|--|

SECTION 14: TRANSPORT INFORMATION

| | |
|-------------|--|
| Land | This product is not regulated for road/rail transport. |
|-------------|--|

Sea IMDG (Packaged Goods and BLCs). This product is not regulated for sea transport.

Air (ICAO/IATA). This product is not regulated for air transport.

SECTION 15: REGULATORY INFORMATION

Material is non-hazardous under Occupational Safety and Health (Classification, Labeling, and Safety Data Sheet of Hazardous Chemical) Regulations 2013.

The Chemical Substances present in this product are listed under Philippine Inventory of Chemicals and Chemical Substance (PICCS).

SECTION 16: OTHER INFORMATION

Approvals Research and Development Department
Petron Corporation

This safety data sheet contains the following revisions **8**

This is a computer-generated form and does not require a signature.

The information and recommendations contained herein are based on the data sheet and sources believed to be accurate and correct and Petron makes no expressed or implied warranty with respect to the accuracy of the information or the suitability of the recommendations contained in the SDS. It is your responsibility to contact Petron to ensure that this document is the most current available from Petron. The information and recommendations are offered for the user's consideration and examination. It is the user's full responsibility to satisfy itself that the product is suitable for the intended use and to ensure the safe handling and use of the product. If the user repackages this product, it is the user's responsibility to ensure proper health, safety and other necessary information is included with and/or on the container. Appropriate warnings and safe-handling procedures should be provided to handlers and users. Alteration of this document is strictly prohibited. Petron accepts no responsibility and hereby disclaim all liability for any harmful effects which may be caused by purchase, resale, use, exposure or disposal of the product. Users must comply with all local laws and regulations. Except to the extent required by law, re-publication or retransmission of this document, in whole or in part, is not permitted. The term, "Petron" is used for convenience, and may include any one or more of Petron Corporation, Petron Oil & Gas International Sdn Bhd or any affiliates in which they directly or indirectly hold any interest. In no event, shall Petron or its suppliers be liable for any direct or indirect loss of profits or for any other special, indirect or consequential damages, nor shall the liability of Petron on any claim for damages arising out of or connected with the sale, delivery or use of the product purchased exceed the purchase price of the product.
