The Company is committed to respect the legal rights of its stockholders.

At each stockholders' meeting, a stockholder entitled to vote has the right to vote one share, in person or by proxy, for each of share of the capital stock held by such stockholder, subject to the provisions of the By-laws, including the provision on cumulative voting by holders of shares entitled to vote in the case of the election of directors.

The By-laws specifically provide for cumulative voting in the election of directors. The By-Laws and the CG Manual also requires the affirmative vote of at least 2/3 of the total issued and outstanding shares entitled to vote to remove a director with or without cause.

Preferred stockholders have the right to vote on certain corporate acts as provided and specified in the Corporation Code, including the fundamental changes listed above.

The Board of Directors of the Company (the "Board") is required by the CG Manual to be transparent and fair in the conduct of the annual and special stockholders' meetings of the Company. The stockholders are encouraged to personally attend such meetings and, if they cannot attend, they are apprised ahead of time of their right to appoint a proxy.

Right to Dividends

Stockholders have the right to receive dividends subject to the discretion of the Board of Directors.

While the CG Manual provides that the Company shall declare dividends when its retained earnings exceeds 100% of its paid-in capital stock, except: (a) when justified by definite corporate expansion projects or programs approved by the Board, (b) when the Company is prohibited under any loan agreement with any financial institution or creditor, whether local or foreign, from declaring dividends without its consent and such consent has not been secured, or (c) when it can be clearly shown that such retention is necessary under special circumstances obtaining in the Company, such as when there is a need for special reserve for probable contingencies, it is the policy of the Company to declare as dividends out of its unrestricted retained earnings at least 25% of its unappropriated net income (after taxes) for the prior fiscal year, payable either in cash, distribution of property, or by issuance of new shares of stock. The Board of Directors shall determine, by resolution, the exact amount, the date and the shareholders entitled thereto.

The dividends for the preferred shares is fixed at the rate of 9.5281% *per annum* calculated in reference to the offer price of P100 per share on a 30/360-day basis and shall be payable quarterly in arrears, whenever approved by the Board. Since the listing of the preferred shares in March 2010, cash dividends have been paid out in March, June, September, and December of each year.

On August 6, 2014, the Company declared cash dividends of P2.82 per share to preferred shareholders for the third quarter of 2014. On March 24, 2014 and May 6, 2014, the Company declared cash dividends of P0.05 per share to common shareholders and P2.82 per share to preferred shareholders for the second quarter of 2014, respectively. Appraisal Right

The stockholders have the right to dissent and demand payment of the fair value of their shares in the manner provided for under the Corporation Code under any of the following circumstances: (a) when there is a change or restriction in the rights of any stockholder or class of shares, (b) when the corporation authorizes preferences in any respect superior to those of outstanding shares of any class, (c) when there is an extension or shortening of the term of corporate existence, (d) in case of a sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property or assets, (e) in case of a merger or consolidation and (f) in the event of an investment of corporate funds in any other corporation or business or for any purpose other than the primary purpose for which the corporation is organized.

Rights of Minority Shareholders

In addition to the stockholders rights discussed above, minority stockholders are granted the right to propose the holding of a meeting, and the right to propose items in the agenda of the stockholders' meeting, provided the items are for legitimate business purposes and in accordance with law, jurisprudence and best practice.

The By-laws specifically provide that a special meeting of the stockholders may be called at the written request of one or more stockholders representing at least 20% of the total issued and outstanding capital stock of the Company entitled to vote, and which request states the purpose or purposes of the proposed meeting and delivered to and called by the Corporate Secretary at the Company's principal office.

Shareholders' Meetings and Voting Procedures

All the meetings of the stockholders are held in the principal place of business of the Company or any location within Metro Manila, Philippines as may be designated by the Board.

In 2014 and 2013, the annual stockholders' meeting was held at the Valle Verde Country Club in Pasig City, Metro Manila.

In 2012, the annual stockholders' meeting was held at the Edsa Shangri-La Manila Hotel, 1 Garden Way, Ortigas Center, Mandaluyong City, Metro Manila.

The Company encourages shareholding voting rights and exerts efforts to remove excessive unnecessary costs and other administrative impediments to the meaningful participation in meetings and/or voting in person or by proxy by all its stockholders, whether individual or institutional investors. To encourage attendance and provide convenient transport during the annual stockholders' meetings in 2013 and 2014, the Company provided shuttle services in strategic points in the vicinity of the Valle Verde Country Club to provide free shuttle service to stockholders to and from the meeting venue.

At each stockholders' meeting, a common stockholder is entitled to one vote, in person or by proxy, for each of share of the common capital stock held by such stockholder, subject to the provisions of the By-laws, including the provision on cumulative voting in the case of the election of directors.

Under the By-laws, cumulative voting is allowed in the election of directors. A common stockholder may therefore distribute his/her votes per share to as many persons as there are directors to be elected, or he/she may cumulate his shares and give one candidate as many votes as the number of directors to be elected multiplied by the number of shares he/she has, or he/she may distribute them on the same principle among as many candidates as he/she shall see fit; provided, that the total number of votes cast by him/her shall not exceed the number of shares owned by him/her as shown in the books of the Company multiplied by the whole number of directors to be elected.

Preferred stockholders have the right to vote on certain corporate acts specified in the Corporation Code.

If at any stockholders' meeting a vote by ballot shall be taken, the By-laws require that a voting committee be created which will adopt its own rules to govern the voting and take charge of the voting proceedings and the preparation and distribution of the ballots. Each member of the voting committee, who need not be stockholders, will subscribe to an oath to faithfully execute his/her duties as an inspector of votes with strict impartiality and according the best of his/her ability. In any event, the external auditor of the Company will be requested to supervise the voting proceedings.

Disclosure Duties (updated pursuant to the SEC Form 17-C of the Company dated July 3, 2014 in relation to the amendment of its CG Manual)

Provide the company's definition of "independence" and describe the company's compliance to the definition.

Under the CG Manual, the independence of an independent director is defined as independence from Management and the lack of any business or other relationship (apart from fees and shareholdings) which could, or could reasonably be perceived to materially interfere with the exercise by such director of independent judgment in carrying out his responsibilities as a director.

To ensure that the independence of an independent director is maintained, an independent director of the Company is required to submit to the Corporate Secretary a certification confirming that he possesses all the qualifications and none of the disqualifications of an independent director at the time of his election and/or re-election as an independent director.

The CG Manual expressly provides as a ground for disqualification and ineligibility of an independent director (or any person aspiring for nomination and election as independent director) the appointment as an officer, employee or consultant of the Company. The disqualification and ineligibility are effective until after the lapse of two (2) years from the termination of his officership, employment and consultancy agreement with the Company.

Further, the CG Manual provides as a temporary disqualification of an independent director (or any person aspiring for nomination and election as independent director) the beneficial equity ownership in the Company or its subsidiaries and affiliates of more than 2% of the subscribed capital stock. The disqualification can only be lifted until after the shareholding limit is complied with.

Does the company have a term limit of five consecutive years for independent directors? If after two years, the company wishes to bring back an independent director who had served for five years, does it limit the term for no more than four additional years? Please explain.

The nomination and election of the independent directors of the Company are made in accordance with law, the By-laws, and the CG Manual.

D. RISK MANAGEMENT SYSTEM

1) Disclose the following:

(a) Overall risk management philosophy of the company;

Under the Corporate Policy Manual, Management recognizes that the Company faces risks that have consequential losses. For this reason, the Company has adopted the policy of having a risk management program consistent with its corporate objectives as well as its financial resources. As disclosed in the Definitive Information Statement and the annual report (SEC Form 17-A), Petron follows an enterprise-wide risk management framework for identifying, mapping and addressing the risk factors that affect or may affect its businesses.

The Company's risk management process is a bottom-up approach, with each division mandated to conduct regular assessment of its risk profile and formulate action plans for managing identified risks. As Petron's operation is an integrated value chain, risks emanate from every process and some can cut across divisions. The results of these activities flow up to the Management Committee and eventually the Board through the Company's annual business planning process.

Oversight and technical assistance is likewise provided by corporate units and subsidiaries with special duties. The Risk and Insurance Management Group is mandated with the overall coordination and development of the enterprise-wide risk management process. The Financial Risk Management Unit of the Treasurers Department is in charge of foreign exchange hedging transactions. The Transaction Management Unit of the Controller's Department provides backroom support for all financial transactions. The Corporate Technical & Engineering Services Group oversees compliance with the domestic and international standards set for health, safety and environment. The Internal Audit Department is tasked with the implementation of a risk-based auditing. Petron Singapore Trading Pte. Ltd. executes the hedging transactions involving crude and product imports on behalf of the Company.

(b) A statement that the directors have reviewed the effectiveness of the risk management system and commenting on the adequacy thereof;

The regular assessment by each division of its risk profile and its formulation of action plans for managing identified risks are eventually reported to the Management Committee which, in turn, brings the same for the approval by the Board through the presentation and approval of the annual business plan.

The Audit Committee of the Board, in its audit report for each year, states whether it has conducted a review of the report of the Internal Audit Department on the adequacy and effectiveness of the internal and control environment of the Company. The Audit Committee issued its audit report for 2012 and 2013, a copy of each of which appears in (i) the 2012 annual report (SEC Form 17-A) and the Definitive Information Statement for the 2013 annual stockholders' meeting and (ii) the 2013 annual report (SEC Form 17-A) and the Definitive Information Statement for the 2014 annual stockholders' meeting, respectively, which states that the committee has reviewed on a quarterly basis the report of the Internal Audit Department on the adequacy and effectiveness of the internal and control environment in the areas covered during the covered period.

It is the policy of the Company under the CG Manual that shareholders' voting rights in general (not only those in respect of the matters listed above) are encouraged to be exercised. The CG Manual further provides that shareholder's rights should be promoted by removing impediments to the exercise of such shareholders' rights. The Board is thus tasked to do what is necessary to remove excessive unnecessary costs and other administrative impediments to stockholders' meaningful participation in meetings and/or voting in person or by proxy.

To encourage in general the participation by the stockholders in stockholders' meetings of the Company, such meetings are held in accessible venues. As an additional measure to disseminate information on the annual stockholders' meeting, the Company publishes in newspapers of general circulation the notices of the meeting. Further, the Company does not require any document or formality for the execution of proxies other than what is required in the law, *e.g.*, proxies do not need to be notarized. In 2012, the annual stockholders' meeting was held in Edsa Shangri-La Manila Hotel located at 1 Garden Way, Ortigas Center, Mandaluyong City. 4. State, if any, questions and answers during the Annual/Special Stockholders' Meeting.

Questions and comments were raised by stockholders during the 2012, 2013 and 2014 annual stockholders' meetings. All these were documented in the minutes made available to the stockholders during the 2013 annual stockholders' meeting in respect of questions raised during the 2012 meeting and during the 2014

annual stockholders' meeting in respect of questions raised during the 2013 meeting. Questions and comments raised during the 2014 annual stockholders' meeting are also documented in the minutes to be made available to the stockholders during the 2015 annual stockholders' meeting.

2012 Meeting

The questions and comments raised and the answers given are as follows:

- *Benefit of the acquisition by the Company of the downstream business of Exxon in Malaysia* - The Chairman explained that, with the acquisition of such integrated downstream business, the Company had extended its businesses outside the Philippines. The Company now owns and operates the Port Dickson Refinery, product terminals and a network of approximately 550 retail service stations in Malaysia.
- *Status of the Refinery Master Plan Phase 2 ("RMP-2") and the network expansion program.* - The Chairman replied that the construction of the RMP-2 was on schedule and expected to be completed in 2014. The completion of the RMP2 would enable the Company to increase its capability to process heavier crudes and convert fuel oil into a broader range of products and petrochemical products. On the network expansion program, he explained that, as of end December 2011, the Company had built about 700 new stations thereby bringing the number of its service stations to about 2,000.
- *Offer for the sale of the Refinery to the government.* - Mr. Ang emphasized that the Company was not selling the Refinery. He explained that he just raised the thought on the sale when asked how else the Company could help the government since the acquisition of the Refinery would allow the government to closely monitor importations and collect appropriate taxes and duties.
- *Effect on the Company of the recent numerous decreases in gas retail prices.* - The Chairman explained that the Company was not always able to increase retail prices even when the price of crude oil went up. The high cost of inventory of such crude oil resulted in lower margins.
- *Requirements to qualify for a retail dealership* - Mr. Ang explained that the primary requirement for operating a service station was finding a good location that the Company could buy or lease long-term.
- *Reported acquisition by the San Miguel Group of Philippine Airlines.* - Mr. Ang replied that Philippine Airlines was already an existing client and the Company would continue to sell to it at competitive prices.
- *Comments relating to providing assistance for reconciling the records of their shares and receiving dividend payments.* - The stockholders were advised to approach the stock transfer agent, SMC Stock Transfer Services Corporation, whose representatives were present at the meeting. The Chairman also suggested that the stockholders concerned visit the Office of the Corporate Secretary of the Company.
- *Suggestion on LPG delivery.* - The Chairman explained that an LPG delivery scheme was already in place but any further assistance on the matter may be brought to the attention of the Company.

2013 Meeting

The questions and comments raised and the answers given are as follows:

- *Oil smuggling and its effect on the Company* - The Chairman explained that oil smuggling has been present since the oil industry was deregulated. As smuggling becomes more rampant, less taxes are paid to the government and the volume that the Company sells may decrease since the prices from illegal sources are cheaper.

- *Status of the Company's investments in Malaysia* - The Chairman replied that Petron Malaysia was a good investment and the business in Malaysia was doing well. He encouraged the stockholders to go to Kuala Lumpur and see from the airport and all the way to the city how nice Petron's stations are. The Chairman noted that another investment as good as Petron Malaysia may not be easy to find. To answer a related query, the Chairman explained that the issue on branding in Malaysia was being addressed. While the name of Petron is close to Petronas', the Company was able to demonstrate the difference.
- *Entry of new players* - The Chairman explained that the Company could not do anything about the entry of new players. Under a deregulated market, new players are free to put up their own stations and purchase their products from different sources.
- *Dealership of the Bulilit stations* - The Chairman explained that the investment required for a *bulilit* station was minimal to facilitate the putting up of service stations in small locations. While a company-owned gas station would require around P 30-50 million as initial investment, he said that a *bulilit* station would only require about P5 million. The Chairman likewise noted that the *bulilit* stations may be expanded to become regular stations. The lot size required for a *bulilit* station was estimated to be around 500-1,000 square meters.
- *Benefit of the RMP-2* - The Chairman replied that the Refinery was rated at 180,000 barrels a day but only runs at an average of 100,000 barrels a day. He explained that running the Refinery at full capacity would result in a bigger volume of bunker fuel which the Company was already selling at a loss. Once the Refinery is upgraded, the Company may run it at 100% and the bunker fuel would be converted to higher margin white products (e.g., gasoline, diesel) and more petrochemicals such as propylene and xylene.
- *Priority projects of Petron from 2013-2016* - The Chairman confirmed that the upgrade of the Refinery remains to be the priority project. Once the upgrade is completed, he explained that the Company's revenues would improve which would translate to higher share price and higher dividends.
- *New product of the Company available in the market* - The Chairman explained that the new product, "Super Extra Gasoline," is a result of directive from the Department of Energy that gasoline should have a minimum octane rating of 91RON.
- *Petron Value Card and its benefits* - The Chairman explained that the points earned by the Petron Value Card have no expiry and cardholders would soon have expanded benefits.
- *Lower amount of dividends was declared for the year* - The Chairman said that the sudden drop of crude oil prices in the world market resulted in a decrease in revenues. He, however, assured the stockholders that once the Refinery upgrade is completed, the Company's revenues would increase.
- *Network expansion program* - The Chairman explained that the network expansion program was still ongoing. After three (3) years of undergoing its expansion program, the Company had more than 2,000 stations.
- *Status of Pandacan depot relocation* - The Chairman noted that the Company would comply with the orders of the City of Manila and the Company would cooperate to move out of Pandacan by 2016. The Company has started to build tanks in Limay, Bataan, Rosario, Cavite and Navotas.
